## A Narrative in Wood

The inspiration behind OD blossoms from childhood roots, where interior designer Fernanda Moreira was raised amidst the warmth of her father's joinery workshop. It was there, among hands that shaped wood, that cherished memories were formed—giving meaning and soul to every piece she creates today.

The objects and items within her extensive portfolio preserve the touch of nature. Each finish celebrates the raw, imperfect essence of wood, honouring its unique history and natural markings. Unusual and singular details intertwine, transforming every creation into a living narrative.

Hand-carving techniques and manual finishes imbue each piece with its own spirit—a touch of exclusivity that catches the eye and warms the heart. In this way, Fernanda designs collections that exalt genuine beauty, the authenticity of raw materials, and a passion for craftsmanship, always with Brazilian DNA at the core.

An artist with a sensitive soul, Fernanda specialises in bringing unique design objects to life. Here, the versatility of wood, the lightness of acrylic, the refinement of marble and natural stone meet a highly functional elegance. Her work is a fusion of sophistication and practicality, offering an aesthetic experience that both enchants and transforms for those who appreciate beauty that transcends time.
